Energy Savings Opportunity Scheme (ESOS)

What is ESOS?

ESOS is a new piece of legislation aimed at cutting carbon emissions through the identification of energy reduction measures and making energy savings. It introduces a mandatory programme of energy audits for 'large undertakings', estimated to help deliver nearly £2bn of savings in the UK.

Do you Qualify for ESOS?

A 'large undertaking' is classed as having over 250 employees or an annual turnover in excess of £39M.

The deadline for the first compliance period was 5th December 2015. If you have missed this, we consider that the Environment Agency will look favorably upon an organisation that demonstrates a positive approach to gaining compliance in a timely manner.

Why Act on ESOS?

- **Here Now:** already in Phase 1
- **Mandatory:** if it applies to you, you must comply
- **Investment is Minimal:** audits are only a fraction of energy spend
- **Act Quickly:** start NOW and see in-year benefit
- **Maximum ROI:** implement recommended improvements and recover initial outlay

How can TBS Help?

TBS can help you achieve ESOS compliance and at the same time reduce your energy costs.

Other Services

- Energy Performance Certifications
- Air Conditioning Energy Assessments
- Building Log Book (Part L)
- SBEM and Part L Compliance
- Energy Metering Strategies
- Dynamic Simulation Modelling (DSM)
- Building Services Specifications
- Renewable Energy Feasibility Studies
- ISO 50001
